For Immediate Release

VITEC Multimedia Acquires World Wide Exclusive Manufacturing, Marketing and Distribution Rights of Visual Circuits Multi Channel MPEG Decoder boards and Digital Media converter MC-2E from FOCUS Enhancements.

Agreement authorizes VITEC Multimedia to exclusively manage all sales, marketing and manufacturing of all Visual Circuits Multi-channel boards and MC-2E Media Converter.

Atlanta, March 1st, 2009 – Following its recent acquisition in 2008 of Stradis, Inc. VITEC Multimedia today announced the acquisition of exclusive world wide manufacturing, marketing and distribution rights of former Visual Circuits MPEG Multichannel Decoder boards and previously branded COMO MC-2E Media Converter from FOCUS Enhancements, Inc.

"The Visual Circuits Boards and Focus/Como Media Converter technologies complement the VITEC Multimedia and Stradis current MPEG Encoder and Decoders by offering and expanding our ability to provide single and multi channel Digital Video Solutions to a larger customer base than ever before" said Philippe Wetzel, President & CEO of VITEC Multimedia, Inc.

Michael Conway, CTO of Focus Enhancements, said, "We are extremely delighted to be a part of this significant agreement. It combines the advanced Digital Video decoding solutions from FOCUS Enhancements and the VITEC Multimedia existing MPEG product line with their global sales force, R&D and Service capabilities to deliver a unique value proposition to all FOCUS customers that have been using our MPEG decoder cards and MC-2E converter."

The products concerned in the agreement are Harmony 4ES, Gemini-1 and Gemini-2, and MC-2E Media Converter rack.

About VITEC Multimedia:

VITEC specializes in the development and industrialization of Advanced Digital Video solutions in the MPEG field for OEM and Integrators.

Since 1988, VITEC has been devoted to the development of MPEG Encoding, video compression and the creation of innovative concepts intended for the digital video applications.

Since 1990, the company has focused its entire efforts on digital video, conforming to ISO standards (MPEG for video) and others.

Since its creation, VITEC has been universally recognized for its groundbreaking product development. Its strengths are based on a team of skilled and experienced engineers who understand the challenge and nature of our demanding customer's requirements.

VITEC main objectives are to provide high-end Technology and complete solutions to the Digital Video Market.
